

QUEEN AND CROWN MINERAL ROUTE

A "MISSING LINK" MINERAL.
Mineralogist Discovers a New and Interesting Selling Specimen.

A new mineral of economic as well as scientific importance has recently been discovered by Prof. W. H. Hobbs, of the University of Wisconsin. It was obtained from the Golden Dollar mine at Cripple Creek, Colo., by Gustav Sessinghaus, a graduate student of the university, and supposed to be the origin of the mineral calaverite, the common ore of that district. Calaverite is a telluride ore of gold and silver, in which the amount of silver is only about one-seventh that of gold, but which has never been found in good crystals. The Hungarian mineral sylvanite, which contains equal quantities of gold and silver, is found at Golden, Colo., but thus far not at Cripple Creek.

Prof. Hobbs noticed the unusual appearance of the specimen when Mr. Sessinghaus had obtained was offered the opportunity of selling it. The angles of a number of minute crystals were measured, 42 entirely new crystal forms discovered, new crystal clearly new species. Enough material was secured to permit of its being proved to be a compound of gold, silver, tellurium, in which the gold is twice the amount of silver. It has been given the name of *hobbsite* in honor of Prof. von Goldschmidt, Heidelberg, Germany, one of the most mineralogists of the age.

The new mineral proved "missing link" between the two previously known tellurides of gold and silver, and thus the missing link of a new group of which has only one before it—*staurite*—St. Paul Pioneer Press.

HIT BY A TRAIN.

All But One of a Family of Seven Killed Sunday Afternoon at Columbus.

THE REMAINING ONE BADLY INJURED.

Mr. and Mrs. Reinhard and their Five Children Were Out for a Drive in Their Survey.

They Had Just Visited the Home of Mrs. Hoffman, Whose Husband Had Been Killed by Cars on Friday—At the Crossing They Met Death.

COLUMBUS, O., July 10.—All but one of the seven members of the family of Wm. E. Reinhard, of this city, were killed and the remaining one was badly injured by a Big Four passenger train Sunday afternoon.

The dead: Wm. Reinhard, aged 41; Rachel Reinhard, aged 40; Wm. Reinhard, aged 12; Arthur Reinhard, aged 9; Karl Reinhard, aged 7; Edward Reinhard, aged 5.

Injured: Clarence Reinhard, aged 14, collar bone broken.

The accident occurred at the Woodward avenue crossing of the Big Four railroad and opposite the southwest entrance to the state fair grounds. Mr. and Mrs. Reinhard and their five children, who resided at 225 Donaldson street, were out for an afternoon drive in a survey.

They had just visited the home of a Mrs. Hoffman, whose husband had been killed in the railroad yards last Friday, and were on their way to the home of a sister of Mr. Reinhard. They approached the railroad crossing from the east, arriving at that point just as the westbound passenger train, arriving here at 5:15 p. m., was due.

An eye witness of the accident said he saw the survey crossing the track and at the same instant it was struck by the train. The vehicle was knocked into splinters and Mr. and Mrs. Reinhard and Arthur and Karl were killed outright. Edward and William were so badly injured that they died after being removed to a hospital. Clarence sustained a fracture of the collar bone and other lesser injuries but it is believed he will recover.

The horse which was attached to the survey was literally ground to pieces. It is not known whether any of the members of the unfortunate family were aware of the approach of the train, but the circumstances indicate that they were not. The crossing has long been regarded as a dangerous one, view of incoming trains being obscured by a high fence around the fair grounds. The train was running at a high speed.

The Dead Family "Died."

SPRINGFIELD, Ill., July 10.—For the first time in the history of Camp Lincoln the regimental band of the Illinois National Guard played "Dixie" at dress parade. Sunday night the splendid regimental band of the 1st Infantry, with drum and bugle corps, rendered that inspiring tune as they marched across the parade ground in front of the regiment which was drawn up in battalion order.

Killed in a Runaway.

Mr. John Redmon, of Clintonville, was killed in a runaway accident on July 3, near Paris.

Mr. Redmon was returning home with his husband and four children when their horse took fright and ran away. After the lines broke Mr. Redmon told his wife to jump out, which she did, her head striking the pike. She was picked up immediately by John Herndon, a passerby, but died in his arms in a moment, without speaking a word. Her skull was crushed. The gentlemen were not seriously hurt.

No Settlement Reached.

CHICAGO, July 10.—T. J. Shaffer, representing the Amalgamated Association in the conference of the plate manufacturers and workers, said at 1 o'clock Saturday that no settlement of the wage dispute had been reached. The conference remained in session all day, but several of those present expressed their belief that the threatened strike can scarcely be averted. About 50,000 men will be affected if the strike order is issued.

Short in His Accounts.

PHILADELPHIA, July 10.—The disappearance last week of William Young, a real estate dealer of this city, has brought to light the fact that he is about \$10,000 short in his accounts with his clients. A warrant for Young's arrest has been issued, and the sheriff has seized his property to satisfy creditors.

LOS ANGELES, Cal., July 10.—Nearly 2,000 delegates to the National Educational Association have arrived in the city and 30 special trains are scheduled to arrive Saturday, bringing several thousand. There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires a constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. RAINY SEASON.

The Country Along the American Lines South and Bay Lines is Literally Flooded.

SOLDIERS SUFFER GREAT DISCOMFORT.

Thirteenth Infantry Regiment at Passy is Practically Surrounded by Water, a Few Being Isolated.

A Prominent Filipino General and Many of His Followers, With Arms, in the Cavite Province About to Surrender to the American Authorities.

MANILA, July 10.—It has been raining and storming almost constantly for two days, and the country along the American south and bay lines is literally flooded. The soldiers are suffering great discomfort. The 13th Infantry regiment at Passy is in the worst position, being practically surrounded by water. The bridges that that were used for getting supplies have been washed away and some of the companies are now separated by streams six feet deep.

In many cases the men are sleeping with three feet of water beneath their bunks which are elevated on cracker boxes. The company cooks, when preparing the meals, stand knee deep in water.

Some of the roads leading to Passy are simply impassable and the rice fields on all sides are a great lake. A high wind blew over several tents of the Second reserve hospital.

Manila bay is impossible of navigation by either launches or canoes and no vessels are leaving the harbor. The United States transport General is ready to sail for San Francisco with discharged soldiers, but the latter have to sit about the water front all day, drenched to the skin, waiting for a launch to take them to the steamer.

The river Passig and all the other streams are swollen, and the city streets at low points are covered with water.

MANILA, July 9, via Hong Kong, July 10.—Friendly Filipinos in Manila have been the medium of communications between the American authorities and the military leaders of the insurgents in Cavite province, which for some time promised to result in bringing over a prominent general and several hundred of his followers with their arms. If the negotiations had succeeded the outcome would have had a great moral effect for other defections doubtless would have followed.

There was the general's name given it might lead in his case to a fate similar to that which has befallen other Filipinos suspected of friendliness toward the Americans. He had foreseen the failure of the insurrection and advised Aguinaldo to make terms but it is understood he has sent word to the American that, having sworn to support the insurrection, he must remain loyal to the end.

Similar negotiations are said on good authority to have been conducted with a member of the cabinet of the so-called Filipino government, who himself took the initiative.

Some form of money consideration figured in the discussions with his friends.

Tobacco Market.

Cincinnati, July 8.—The Farmers and Shippers' Leaf Tobacco Warehouse Company reports as follows: The Burley market closed very firm on all grades of tobacco, colors types as usual leading. On account of it being Fourth of July week, offerings were greatly curtailed, and very little good was offered for sale. Next week we expect much better offerings and better prices.

Offerings for the week at all warehouses, 794 hogheads; rejections, 162 hogheads; receipts, 1,953 hogheads. Prices ranged from \$1.30 to \$1.4 the 794 hogheads averaging 6.57 per 100 pounds.

The Negro is still alive, but can not live.

He Had a Beautiful Dream.

WILLIAMSPORT, Pa., July 10.—"I didn't feel the shock, but I enjoyed a beautiful dream," remarked Fred Russell, as he regained consciousness, after being shocked with 1,600 volts of electricity by coming in contact with a changed switch board at the powerhouse of the Edison Electric Co. Russell was rendered insensible for an hour.

PER-UNA'S VICTORY.

Dr. S. B. Hartman, Columbus, O.
 DEAR SIR:—I feel like a new woman since using your Per-una.
 Your medicine has helped me so much that I can work and never feel tired out. When I first began to use your medicine I couldn't sweep my own room, run the sewing machine or lift anything, not even a chair. I even hurt me to ride or walk any distance. Now I can do all this, and I believe more, and never feel the effects of it. I feel so proud of the way it has brought me out that I tell it far and near. I can heartily recommend your medicine to any woman suffering from female disease. I know from experience that your medicine will do just what you say it will. I thank you for a thousand times for your treatment. I shall recommend your medicine wherever I go. I know what it has done for me and I know it will do the same for others. I feel that there are thousands of other women who would, after using your treatment, as I did, be thankful. I am so glad I got your treatment. Miss Emma L. Bolden, Wilberforce, O.
 The Per-una Medicine Co., Columbus, O., will mail Dr. Hartman's special book for women, free on application, to women only. All druggists sell Per-una.

LAND, STOCK AND CROPS.

The Bourbon News reported last week the sale of 23 hds. of tobacco at from \$10 to \$18.25; most of it at about \$10.50.

J. W. Ferguson, of Paris, has sold fifty-two export cattle to J. Sullivan, agent for Schwarzschild & Sulzberg, of New York, at \$4.85 per cwt. The cattle averaged 1,395 pounds.

The Bourbon county crop of wheat will be about sixty per cent. of a full crop. The grain is of fine quality and it is thought that the average yield will be about 15 bushels to the acre.

Now is the time to sow sorghum cane. For fattening stock one acre will equal three of corn.

Hay & Cunningham, of Clintonville, Bourbon county, have sold 70,140-pound cattle to John Embury, of Richmond, at 5c.

July court attracted a very small crowd yesterday to Paris, and business in stock trading circles was slow. There were about three hundred cattle on the market, but not all were sold. Thomason & Hambrick, of Scott, sold 31 cattle to J. H. Martin at \$30.00 each, and Martin bought 25 from other parties at \$28. Jonas Well sold 24 heifers to Thos. Nicholas at prices not learned.—Bourbon News.

SENATE SECRETS.

Almost impossible to keep them from the Public.

"The senate cannot keep its own secrets," said Senator Hearst, last spring, in a speech showing the difficulties in the way of our country's entering into the struggle and turmoil of European diplomacy. What secrets, it may be asked, does the senate have to keep, and why does it fail to keep them?

Under our constitution the national senate, which is a part of the law-making branch of the government, shares with the president in the treaty-making power. The president or his diplomatic agents may make a treaty, but before it becomes valid it must be ratified by the senate. In dealing with a treaty, it is just as important, therefore, for the senate to keep its own secrets as for the president. It would be safe to say that both prose and poetry, as we understand them, would disappear. But, anticipating only such changes in language as have been going on gradually since the dawn of history, is there anything to indicate that there will come a time in the future when poetry will cease to be written, or, if written at all, that it will occupy a much more restricted and humble place than now? Has poetry the capacity to adapt itself to the trend and current of modern life and thought?—Lippincott's Magazine.

Accordingly, whenever the senate is discussing a treaty with a foreign nation, its sessions are held behind closed doors. Newspaper correspondents and spectators are rigidly excluded. The few officers of the senate allowed to remain are sworn to secrecy, and it is a point of honor with the senators themselves not to tell what has led many persons to believe that the attempt at secrecy had better be abandoned altogether. This is a pessimistic view. Whatever it is right for the senate to do should be persisted in until it is successfully accomplished.

Strictly speaking, there is a distinction between an executive session and a secret session, but in popular parlance the terms are almost interchangeable. An executive session is for the consideration of executive, or presidential, business, and as such it is usually a secret session, although not necessarily. Besides its work on treaties, the sessions of the senate called to act upon the president's nomination of officers have executive sessions, and appropriately secret in order that the qualifications of each nominee may be fully presented and discussed. In addition either house or senate may close its doors for the consideration of other kinds of business besides the "executive," and then the deliberations become secret sessions.—Youth's Companion.

SOME HOTEL RULES.

To Govern a Place to Suit All the Kickers.

A great deal of acrid cackle is uttered nowadays upon the question of "rights" to most things under the sun—all the way from "woman's rights" to the rights of guests at hotels. It would seem, moreover, that this agitation has extended to some of the hotel keepers, if one may judge from a set of fanciful, not to say burlesque rules drawn up by a London hotel keeper, who is evidently something of a wag, and which seem to indicate that even this class of "worms was going to turn" and declare that a few privileges were reserved for it.

1. The motto of some hotels should be, say the new rules, "Do unto others as they will do unto you."

2. There are three departments—upstairs, downstairs and outdoors. Outdoors is the cheapest.

3. If the bell in your room is broke, bring the towel.

4. No alarm clocks furnished by the management. Before retiring wind up your bed and hear the ticks.

5. To prevent guests from carrying fruit from the table, it is judicious to provide no fruit.

6. Guests having nightmare will find harness in the wardrobe.

7. Thirteen at dinner table is a bad sign. It is a sign that we will have no supper.

8. Each room is supplied with a handsome chrome card with the following inscription: "Honesty is the best policeman."

9. If the hotel is not on the right side of the street, let it be known at the office, and it will be promptly moved to the other side.

10. No spoon allowed on the table occupied by newly-married couples. This is to prevent "spooning" in public.

11. Guests are not expected to pay their bills unless they prefer to do so. We have seen a few "leave it to me" for board."—Ally Sloper, London.

FUTURE LITERARY CHANGES.

What Will Happen When We Begin Talking "Shorthand."

We can form no conception of that which is wholly foreign to our experience. To the dweller of the thirteenth century our lives, literatures and achievements may seem as far off, as queer and old-fashioned, as colorless and unreal, as those of the Egyptians—the scenes of the Pharaohs seem to us. The spoken languages of the world may undergo some such change as stenography seems to be making in the method of writing them.

A new and wonderfully condensed form of expression may rise upon our system, in which simple sounds, with few combinations, may take the place of our words, phrases and sentences. What literature may be to such a language we can form no conception. It would be safe to say that both prose and poetry, as we understand them, would disappear. But, anticipating only such changes in language as have been going on gradually since the dawn of history, is there anything to indicate that there will come a time in the future when poetry will cease to be written, or, if written at all, that it will occupy a much more restricted and humble place than now? Has poetry the capacity to adapt itself to the trend and current of modern life and thought?—Lippincott's Magazine.

GREENBACKS or Government Money.

At close of our Civil War in 1865, the following in the London Times there appeared:

"If that mischievous financial policy which had its origin in the North American Republic during the late Civil War in that country, should become indurated down to a future, then that government will furnish its money without cost. It will have all the money that is necessary to carry on its trade and commerce. It will become prosperous beyond precedent in the history of civilized nations of the world. The brain and wealth of all countries will go to North America. THAT GOVERNMENT MUST BE DESTROYED EVERY MONARCHY ON THIS GLOBE."

The famous Hazard circular, to capitalists in New York and the Bull Bank circular to United States Bankers, both emanating from London, and the fabulous corruption fund raised in England and Germany, estimated at \$5,000,000, were the agents that cured the closing of our mints against silver.

The "walk into my parlor" policy of England, during and since the Spanish War, is the latest evidence of English Diplomacy in shaping the destiny of the United States Government.

Notwithstanding the famine price of wheat, the Spanish War, and fabulous expenditures of money by our government during the past year, gold has increased in value eleven per cent. and all other values decreased in the same proportion.

For a thorough understanding of the money question, or silver issue, the Cincinnati Enquirer has uniformly given evidence of its ability to teach, explain and produce all facts and truth. It is a paper that ought and can be read by all classes with pleasure and profit.

The wedding was a quiet one, there being present only a few friends and schoolmates of the happy pair. Clifton Forge was the home of Miss Bunch until her advent in Mt. Sterling. She and Mr. Chittum had been friends from childhood and their marriage was no surprise to those who knew them well. Directly after the ceremony they took a train for Staunton where Mr. Chittum had prepared a home for his bride.

Miss Bunch is the only daughter of Capt. P. P. Bunch and wife and left about a fortnight ago for a visit to relatives, and her marriage just at this time was a surprise to her friends here and many are sad at the loss of so fair and faithful a friend.
